

Providing Survey Insights to the Marketing Team of CodeX

Food & Beverage Industry

Introduction

- **CodeX** is a German beverage company that is aiming to make its mark in the Indian market. A few months ago, they launched their energy drink in 10 cities of India.
- Their Marketing team is responsible for increasing brand awareness, market share, and product development. They conducted a survey in those 10 cities and received results from 10k respondents.

Task

As a marketing data analyst my task is to collect the data from survey and convert these survey results to meaningful insights which the team can use to drive actions.

Energy Drink Market in India

The India energy drink market is projected to register a CAGR of 9.98% over the next five years (2023-2028).

Market Leaders- Goldwin Healthcare, Power Horse Energy Drinks GMBH, Monster Beverage Corporation, Nutra like Health Care, Red Bull GMBH

key factors that are driving the growth of the energy drinks market in India:

- Increasing health consciousness among consumers: Indians are becoming more health conscious and are looking for ways to improve their energy levels and performance. Energy drinks are seen as a convenient and effective way to do this.
- Rising disposable incomes: As disposable incomes rise, Indians are spending more on discretionary items, such as energy drinks.
- Changing lifestyles: The Indian lifestyle is becoming more fast-paced and demanding, which is leading to increased demand for energy drinks.

What immediate improvements can we bring to the product?

- Reduced sugar content can be beneficial for health-conscious customers.
- Add more natural ingredients like-caffeine, fruit extracts, herbs, vitamin B.
- Flavors that are added to energy drinks-citrus, berry, apple, mint, cola, grapes.

What should be the ideal price of our product?

- The price range within the range of 50-150 is the ideal choice for our product without compromising quality, affordability, brand reputation.
- Average price range = $(41.84\% * 75) + (31.94\% * 125) + (10\% * 25) + (16.22\% * 175) = 31.38 + 39.93 + 2.50 + 28.45 = 102.26$. As per the given calculation, the ideal price for product is approx **102**.

What kind of marketing campaigns, offers, and discounts we can run?

- **Marketing Campaigns**-online advertising in platforms like: facebook , instagram, youtube can engage more with customers.
- **Offers and discounts**-It can provide buy one get one (BOGO) offers, free sampling, festive discounts, loyalty programs etc to attract more customers .

Who can be a brand ambassador and why?

Virat Kohli, the renowned cricketer and former captain of the Indian cricket team, is a true icon in the world of sports. Known for his aggressive playing style and unmatched dedication, Kohli has captured the hearts of millions of cricket enthusiasts. His influence extends beyond the field, Making him a powerful influencer for our CodeX energy drink. By aligning our brand with Kohli's image of strength, endurance, and success, we can establish a strong connection with consumers who aspire to perform at their best
